
EVENT PHOTOGRAPHY

Your event, properly *photographed.*

Trail runs, mountain bike races, triathlons, open-water swims, paddling events, corporate events and schools across the Western Cape.

Fifteen years on the course — comfortable in a crowd of 30,000, and still close enough to catch the moment someone crosses the line. I shoot action and event work for organisers, sponsors and brands across South Africa.

LIVE SOCIAL MEDIA DURING THE RACE

10–15 hero shots while the race is still happening.

Selected highlights sent during the event by WhatsApp or a cloud link, edited and resized for Instagram, Facebook and X. Unbranded and ready to post. Key climbs, water points and atmosphere. Shooting both start and finish requires a second photographer; best effort depending on signal and access on course.
